

My neighbours

I lived for 6 months in a flat on the first floor, on 10 Sale Apartment in Tesvikiye Fırın Sokak in Istanbul-Nişantaşı. When I looked out of my window, I saw mainly the shopkeepers and kapaçıs on a daily basis, doing their work or passing time (vakit geçirmek). This work is dedicated to all the housekeepers and their families (kapaçıs) who live in the basement of these houses.
